

# Maintenance guidelines

M0085 Rev. 06/23

## Welcome!

Congratulations on your investment in SportsGrass® by ForeverLawn®! We are excited to have you as a part of the ForeverLawn family.

We want to ensure that your experience with SportsGrass is as enjoyable and successful as possible. While SportsGrass is a very low-maintenance solution, light maintenance is critical to ensure the maximum performance and life of any field. For more distinct maintenance directives, please contact your local ForeverLawn dealer.

## General SportsGrass Maintenance

We recommend performing the following maintenance routine once per quarter. This can be scaled up or down according to the usage levels of the field.

**Debris removal** – For large surfaces, a lawn sweeper pulled behind a utility vehicle is an excellent way to remove debris. For smaller applications, a hand operated sweeper or blower are great options.

**Magnet treatment** – To remove metal objects from the turf, utilize a large magnet pulled behind a utility vehicle to clean spacious surfaces. Compact wheeled units can be used manually on small-scale applications.

**Grooming** – To groom the turf fibers, pull a rotating brush tool behind a utility vehicle. For smaller applications, a hand operated power broom will be effective.

**Visual inspection** – While performing maintenance, it is always a good idea to complete a visual inspection of the surface, especially in high-traffic areas.

## Cleaning

For most outdoor fields, routine cleaning of the entire surface is unnecessary, as cleaning is normally only performed in the event of spills. In the event of a spill, a rag should be used with water and, if necessary, a mild detergent and nylon brush.

Semi-permanent items such as paint can also be removed, but will require greater effort. Contact your local ForeverLawn dealer for specific recommendations for your application.

If sanitization is needed, a mild antibacterial treatment should be used. The use of harsh or damaging cleaning chemicals, solutions, or solvents may limit the liability claim.

Further information regarding cleaning materials is available upon request.

We are happy to have you as part of the ForeverLawn family! For additional questions or comments regarding the care and maintenance of your ForeverLawn synthetic grass, please do not hesitate to contact your local authorized ForeverLawn dealer. We are glad to assist you!
