Why K9Grass® Sport?

K9Grass® by ForeverLawn® is the leading synthetic turf solution designed specifically for dogs. K9Grass Sport is a superior surfacing solution for canine athletic competition. With its premium backing, Sport provides unmatched durability and stability for enhanced performance and safety. It also features distinctive features including antimicrobial and antistatic technologies for safety, while providing a grassy surface that can be tailored to desired traction. K9Grass Sport is the ultimate competitive surface.

Sport features

optional infill

infill in K9Grass Sport can be adjusted based on the specific needs of each application.

15-year warranty

warrantied against damage from reflective light.

safer

designed to reduce risk of injury.

antistatic

static-eliminating technology improves safety.

AlphaSan®

antimicrobial blades.

I've been using K9Grass Sport inside of our dog training facility for several months. This turf has offered **superior traction** no matter what skill my sport dogs are working on — from agility foundations, to flying disc tricks, obedience, canine fitness and more. Having a turf option that doesn't require rubber infill has been a huge plus for us!
