# PRODUCT SPECIFICATIONS

| Components           | Specifications                                                                                                                   |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------|
| YARN TYPE            | Primary: Polyethylene monofilament Memory Fiber™<br>Secondary: Heat set textured nylon monofilament                              |
| YARN COLOR           | Primary: Field/clover green<br>Secondary: Turf green/dark tan                                                                    |
| YARN COUNT           | Primary: 10,800/6<br>Secondary: 5,040/12                                                                                         |
| TUFTING CONSTRUCTION | Dual yarn, same row                                                                                                              |
| BLADE HEIGHT         | 1-3/4" <sup>2</sup>                                                                                                              |
| TUFTING GAUGE        | 3/8"                                                                                                                             |
| FACE WEIGHT          | 50 oz. <sup>2</sup>                                                                                                              |
| TOTAL PRODUCT WEIGHT | 105 oz. <sup>2</sup>                                                                                                             |
| BACKING              | Three-layer premium backing made with BioCel™ polyurethane and 100% recycled geotextile nonwoven fabric on a dual layer primary. |
| SEAMING              | Micromechanical bonding                                                                                                          |
| INFILL               | 0.5 pounds of rubber or 3.5 lbs. +/- of rounded sand <sup>1</sup>                                                                |

<sup>1</sup> Recommended infill for normal installation. More or less can be used, and heavy traffic areas will perform better with higher infill levels.

<sup>2</sup> Product heights shown may have a variance of 1/8" and product weights shown may have a variance of 5%.

Grass without limits.®
